

Press Release

CBNCloud and TechMatrix Deliver Breakthrough Cloud Customer Relationship Management Solution to Enhance Efficiency and Productivity in Indonesia

Jakarta, June 10, 2014 – PT. Cyberindo Mega Persada (CBNCloud), a pioneer cloud service provider in Indonesia, along with TechMatrix Corporation, a specialist IT corporate group from Japan, today affirmed their strategic partnership by delivering FastHelp, a cloud-based, cutting-edge Customer Relationship Management (CRM) System solution for Contact Centers in Indonesia.

“The high sustained rate of national economic growth has propelled the emerging of business in Indonesia. The competition tightens. Businesses or brands are challenged to deliver their top class supports to achieve customer satisfaction, as well as to enhance business efficiency and productivity,” said **Budhi Wibawa, CEO, CBNCloud**. “FastHelp, the CRM System solution announced today, is the manifestation of our understanding, long-haul commitment and support for the industry to overcome challenges faced by businesses. Its presence in Indonesia has widened CBNCloud Contact Center portfolio as well as strengthened our leadership in Indonesia.”

Budhi added that CBNCloud keeps delivering innovations to fulfill customer needs by offering FastHelp, a sophisticated CRM System solution powered by TechMatrix that can be integrated with customer’s Contact Center. He believes that the collaboration between CBNCloud and TechMatrix help companies to solve business related-issues, such as Contact Center Quality, operational efficiency, provide effective CRM promotion, reduce in-bound calls, knowledge-based sharing, no IT assets, as well as IT Management cost.

“Our decision to establish a strategic partnership with TechMatrix is because the company has more than 18 years of rich experience in Contact Center industry in Japan. TechMatrix’s range of solutions has met our vision in providing the most innovative solutions that can simplify customers’ life. Their portfolio will bring us great advantages in delivering sophisticated services to customers, especially when dealing with early adopters in Indonesia. We believe that this collaboration will bring benefits to customers, open greater business opportunities in the future,” says Budhi.

Takashi Yuri, President & CEO, TechMatrix Corporation, says, “We found CBN Cloud to be an ideal partner because they are very committed to delivering the cutting-edge cloud solution in this country. I was really impressed by the vision and the technical competency that CBN Cloud brought to the market. We jointly launched our First Cloud-based Contact Center CRM solution with CBN Cloud and successfully won the first contract in Indonesia with Transcosmos Indonesia who provides Call Center Services to their clients. This is the very important first step on the way toward our great success in this market.”

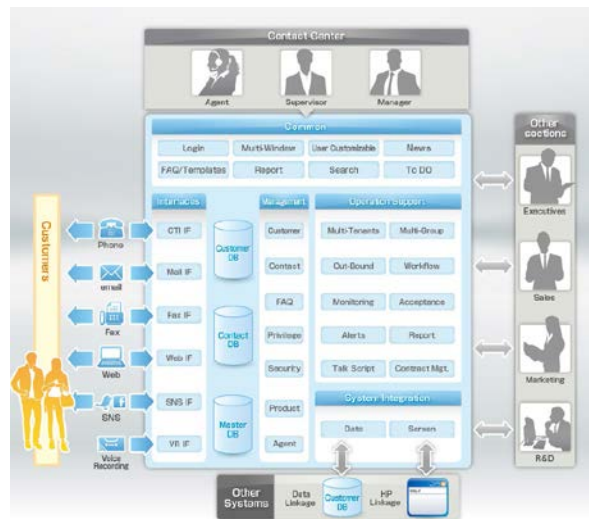

FastHelp can manage all customers’ related information, including customer’s profiles and contact histories through multi-channels such as phone, email, fax and web, in a single database, as a result, it helps to improve a quality of customer services. FastHelp is an easy-to-use, user-customizable and function-rich CRM System solution that provides high scalability for all business scales across industries.

FastHelp suits with the specific needs of corporates and offer lower total cost of ownership and higher ROI compared to competitors’.

One of the triumph feature of FastHelp over the competitors is the user-customizable Graphic User Interface (GUI). Users can customize details, such as input and output, fonts and colors, and layout screen. FastHelp also supports Social Media interactions, such as Facebook and Twitter making it easier to manage Voice of Customer (VOC) from various communication channels. It also provides extensible optional features, such as talk-script editor and integration with CTI, Voice Recording Systems and FAX – depending on Contact Center’s requirements. FastHelp provides high scalability as it can scale from small Contact Centers with less than 10 seats to the larger ones with over thousands of seats.

Equipped with rich functions and top-class features, FastHelp, which contains the best-practices of major Japanese Companies’ Contact Center, enables companies to increase Customer Satisfaction and reduce Operational Cost at the same time. Multi-Channel Support feature enables Contact Center to receive VOC and address it for further business operations.

“All VOCs are automatically stored in database and utilized by multi-departments for further business development strategy or early anticipation measures to mitigate potential business risks. FastHelp’s top-class, rich features helps business to enhance customer satisfaction on the top level and lower the operational budget at the same time by improving Contact Center Agents’ productivity and efficiency,” added Takashi Yuri.

Having implemented FastHelp solutions in Indonesia, PT. transcocosmos Indonesia feels pleased with the strategic collaboration between the two companies. Hiroyoshi Hara, President of PT. transcocosmos Indonesia said, "We welcome the presence of FastHelp, a reliable CRM System solution for Contact Centers in Indonesia. We anticipate that we will be able to provide higher level of services by utilizing FastHelp in Indonesia. We have already started using FastHelp in our Contact Center to improve customer services."
